

**DEPARTMENT APPLICATION FOR GRADUATE SCHOOL ADMISSION
Educational Psychology and Educational Technology**

Application Deadline:
DOCTOR OF PHILOSOPHY – HYBRID OPTION – DECEMBER 1, 2013

A doctoral program is more than a collection of courses, but courses play an important role in supporting students' learning about a range of perspectives and issues relevant to technology and education, to support the development of their own research focus, and to participate in intellectual communities. Course requirements are intended to provide students with a common grounding in important knowledge and issues while providing maximum flexibility to build a program suited to the student's individual professional goals. The requirements ensure a rich grounding in understanding and carrying out research. Each student is expected to work closely with his or her guidance committee to select courses that provide sufficient exposure to other perspectives important for studying chosen educational issues.

Candidates for the Ph.D. degree in Educational Psychology and Educational Technology will complete at least 14 courses, meeting the following requirements:

Sample schedule of courses for hybrid program

Year 1		
Summer	CEP 900 CEP 930	Proseminar in Educational Psychology I Educational Inquiry
