Application for Admission to the Elementary Mathematics Teaching Major

Intended for Fall 2019 Applicants Applying for Admission in Spring 2020

Admission to the elementary mathematics teaching major is limited and requires a special application. To be considered for admission to the elementary math major, you must complete this form, attach the required transcripts, and submit those materials to 134 Erickson Hall before 5:00 PM on Friday, December 13, 2019.

You will receive your decision about admission to the teacher preparation program before spring break. However, you will be notified about your admission to the math major before spring semester classes begin so you can make changes to your SS20 course schedule accordingly. Because these decisions about admission to the math major are made early, applicants who do not submit the supplemental application and transcripts before 5:00 PM on Friday, December 13 cannot be considered for admission to the elementary math teaching major.

Name: __________________________________

Date: __________________________________

PID: __________________________________

Email: __________________________________

Are you applying to accelerate your program? To be eligible to accelerate, you must have earned at least 56 credits before the beginning of FS19, be able to finish all requirements by the end of US21 and submit an Acceleration Grid that has been signed by your advisor before 5:00 PM on Friday, December 13, 2019.

Are you applying to accelerate your teacher preparation program? Yes       No

Anticipated Internship Year:    2021-2022
                              2022-2023
                              Other (must explain):
Are you a member of the Honors College? Yes       No

Did you receive credit for AP Math classes? Yes       No
(If yes, indicate which)

- Calculus AB
- Calculus BC
- Statistics

Please list the math courses you have taken since high school. Please provide the course number and name (e.g., MTH 132, Calculus I), the institution at which you took the course (e.g., MSU, LCC, etc.), and the semester in which you took the course (e.g., FS19). You must also provide a transcript for courses taken elsewhere (unofficial transcripts are acceptable).
