

Do you want *your infant* to participate in an unique physical activity study?

Who's Eligible?

- Infants less than 7 months of age:
Typical development or Down syndrome

Michigan State University, Department of Kinesiology

-Parents in our study will receive continued **education** about **promoting infant development and health**. Physical activity in early infancy can foster **motor milestone achievement**, may **reduce obesity risk**, and may also **facilitate healthy physical activity levels in later life**.

-Families in this study will perform physical activities with their infant during the first year of life, including tummy time and treadmill training.

-During this time, we'll measure your **infant's physical activity, growth, and motor development**.

-Over \$100 in cash incentives.

-Contact: playdlab@gmail.com or (517) 884-8970
