Board Certified Behavior Analyst at Michigan State University Early Learning Institute

The Michigan State University Early Learning Institute is looking for a Board Certified Behavior Analyst (BCBA) to join our new and growing early intensive behavioral intervention program for children with autism spectrum disorder (ASD). The Early Learning Institute (ELI) provides full day behavioral therapy in an inclusive environment, family training in behavior analysis, and offers behavior analytic training opportunities for University students. The ELI has two therapy centers that are each located within child development centers. One of the main objectives of the ELI is to bring applied behavior analysis into existing educational settings.

We are looking for a BCBA to join our team who is interested in developing, delivering, and teaching others to deliver naturalistic behavioral interventions in order to affect change in the lives of all our consumers. The MSU ELI offers an exciting environment for delivering behavior analytic programming to children and families while working with world renowned University research faculty. We provide continuous professional development opportunities for all staff, including opportunities to participate on research teams, attend and present at conferences, and interact with interdisciplinary service providers. The BCBA will work closely with multiple BCBA-D’s and will receive extensive training in naturalistic behavior interventions, family training, peer-mediated interventions and instruction, and behavioral skills training.

The position responsibilities include: comprehensive behavioral assessment, developing and overseeing behavior analytic programming for children with ASD, participation in family training and care coordination, providing training to behavioral technicians and university students, and potential for supervising applied behavior analysis certificate students in practicum settings and conducting research studies.

REQUIRED QUALIFICATIONS:
- An earned Masters in Special Education, Applied Behavior Analysis, or Psychology
- A Board Certified Behavior Analyst credential or eligibility to sit for the BCBA exam within six months of being hired
- 2+ years working with children with ASD
- Experience developing, administering, and training others to administer behavioral programs for young children with ASD
- Experience collaborating with service providers from a variety of backgrounds
- Strong leadership, communication, and interpersonal skills
- Experience supervising individuals seeking a BCBA or BcABA credential
- Commitment to working with cross-disciplinary research teams
- Ability to pass a state and federal background check

Appointment: This is a 12-month position with the potential to be renewed annually based on satisfactory review and continued funding. Salary for this position is commensurate with experience. Michigan State University offers an excellent selection of benefits; please see
www.hr.msu.edu for more information. MSU is an affirmative action, equal opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, Veterans, and persons with disabilities.

**Application Procedure:** Electronic submission is required and materials should be uploaded at http://jobs.msu.edu, referencing position 4790. Review of applications will begin February 3rd and will continue until position is filled. Applicants are asked to submit a cover letter describing qualifications and interest in the position, a curriculum vita, and three letters of recommendation. Interest and inquiries can be directed to Dr. Kate La Londe, lalond18@msu.edu.
